FLOORING – Technical floor

The technical floor is not a finished floor.

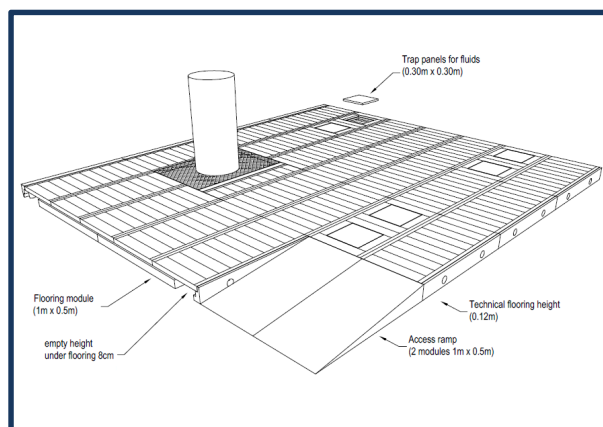

It is mainly used to up-level a stand for utilities (electricity, water, drainage...).

Should you wish to cover it with a parquet floor, lino or other, we recommend using a finishing floor to add to a technical floor.

We remind you that drilling in the technical floor is strictly forbidden.

Do not forget to mention the position of the hatches and access ramp on a scheme.

Technical floor including access ramp: Height : 12cm including 10% of hatches for utilities. Resistance : 350 kg/sqm	€21 Excl VAT / sqm
Access ramp: Module 1x1m	€60 Excl VAT / unit
Finishing floor (to put only on technical flooring) – to be covered (carpet, lino..)	On quotation

IMPORTANT :

In accordance to the Decree no. 94-86 of January 1994 pertaining to disabled access in premises open to the public, stands comprising a floor must include an access ramp.

FLOORING - Carpet

Tufted carpet is covered by a protected plastic sheet.
 Price includes installation (double sided tape) and removal.
 Back carpet : fireproof impregnated / 100% synthetic fibers.

Tufted carpet	€14 Excl VAT / sqm
Combined offer : tufted carpet + technical floor + access ramp	€35 Excl VAT / sqm

Wall mount brackets : included with the monitor, see "important notice"	0	

Important notice

-> Our monitors are wall mounted (brackets included) : a reinforced partition is compulsory. Check with your booth maker, or nearby the organizer of the exhibition.

If your partition is not reinforced / can't be drilled, you need a floor stand

-> Our monitors can read video on USB stick. The video must be MP4 using H264 codec. We can test the video sent 72h (working day) before the opening of the exhibition.

Our technicians will not convert the videos during setup
